## TERRA VALLEVERDE

Terra Valverde's history stretches back to 1920, when the Busuioc family established a large vineyard under the name of Busuioc Winery in Valea Calugareasca, superbly located on the south-facing hills covered predominantly with reddish-brown soil, rich in feric salts.

The Terra Valverde winery is part of the Dealu Mare vineyard, which is situated in the southern part of Romania and spreads over the surface of Prahova and Buzau counties. It is also identified as one of the most important and compact wine regions in Romania, located in the southern Carpathian hills and stretching over an area of 65 km with a width ranging between 3 and 12 km. Last but not least, Dealul Mare is positioned on the parallel 45°, in the select company of Bordeaux and Tuscany.

The grapes are hand-picked at maturity starting in August, first the white Chardonnay, Feteasca Regala and Feteasca Alba grapes, then the red eco Pinot Noir grapes. It continues with Sauvignon Blanc, Pinot Blanc and Tamaioasa Romaneasca when they have reached their full maturity. The red grapes Merlot, Cabernet Sauvignon, Cabernet Franc and Feteasca Neagra are picked late at maturity, towards the end of September when they reach maximum tannins and aromas.

*Euripides:*

*Where there is no wine  
there is no love.*

Istoria Terra Valverde dateaza inca din anul 1920, cand familia Busuioc a infiintat o mare podgorie sub denumirea de Vinaria Busuioc in Valea Calugareasca, superb amplasata pe dealurile cu orientare sudica, acoperite predominant cu pamant brun-roscat, bogat in saruri feric.

Crama Terra Valverde face parte din podgoria Dealu Mare, care este situata in partea de sud a Romaniei si se intinde pe suprafata judetelor Prahova si Buzau. De asemenea, este identificata ca fiind una dintre cele mai importante si compacte regiuni viticole din Romania. Situata in dealurile Carpatilor de Sud aceasta se intinde pe o suprafata de 65 km cu o latime cuprinsa intre 3 si 12 km. Podgoria Dealul Mare este situata exact pe paralela 45 - cea mai buna latitudine pentru productia viticola, la fel ca regiunile Toscana (Italia) sau Bordeaux (Franta).

Strugurii sunt culesi manual la maturitate incepand cu luna august, mai intai strugurii albi Chardonnay, Feteasca Regala si Feteasca Alba, apoi strugurii rosii eco Pinot Noir. Se continua cu Sauvignon Blanc, Pinot Blanc si Tamaioasa Romaneasca cand ajung la maturitate deplina. Strugurii rosii Merlot, Cabernet Sauvignon, Cabernet Franc si Feteasca Neagra sunt culesi tarziu la maturitate, spre sfarsitul lunii septembrie cand ajung la maximum de taninuri si arome.

*Acolo unde nu exista vin,  
nu exista dragoste.*
